Howell, Mich., Dec. 23.—Mrs. Jacob Eldridge, an old colored weman who has been gradually turning white for several years, died yesterday. The greater part of her body at the time of her death was a healthy lily white. Her ancestors as far as known were full blooded negroes. A as known were tan basoled negross. A number of years ago she noticed on her leg a small pure white spot. Soon after other similar spots appeared and gradually spread until they joined. Almost her entire body thus became white except her face, and several white spots appeared on it.

Her Mind Was Unbalanced. CHICAGO, Dec. 23.—Mrs. Jesse Johnson, daughter of Henry C. Munich, a formerly wealthy board of trade speculator, and wife of a young lawyer at Knoxville, threwher self into the lake at 39th street today. Her beautiful face attracted the attention of a group of boys who saw her hastening toward the breakwater; they saw her jump into the ice and drift that was dashing against the pier. A rope was thrown to her by the boys, but she refused to grasp it. The body was rescued by a policeman before life was extinct, but efforts to resuscitate it was of no avail.

She had visited the office of Dr. Cham-

berlain half an hour previous to her death. but he was so busy and she was ngitated that he told her to come to the office tomorrow and explain her case. It is stated by friends of Mrs. Johnson that her intellect previously brilliant, has been more or less unbalanced since her admittance to the bar over a year ago. Overstudy is the cause assigned. Mrs. Johnson came to Chicago only a short time ago to place her under care of a physician, busband was to have been here to-morrow to spend the holidays.

Important Mining Litigation. DENVER, Col., Dec. 23 .- The most inportant mining litigation ever tried in Coorado was concluded it the U.S. circuit court here today. Militons of dollars was involved in the trial and precedent set which involves title to nearly five hundred mining claims in the vicinity and in Pen-pitin county, Colo. The case at issue is whether a certain mine contains fissure veins or deposits of ore. If the fissure the-ors is correct then owners claims of Apex or where outer openings, visible on the surface, had right under U. S. statute to follow the deep vein into other claims. But if the deposit theory is maintained the vast number of mines in the mountain could be operated by their owners as far as the boundaries of their claims. The present suit was brought by D. M. Hyman, Cin-cinnati, against J. B. Wheeler, of New York City, and other capitalists. Hyuan owns Durant mine and Apex claim, and Wheeler and friends own Emma name, which lies immediately beneath.

Durant is the older portion, but rich ore was first struck in Emma. \$180,000 worth of ore had been taken out of Emma when the Durant people brought suit to gan possession, of Emma. On the Apex to-ory the court enjoined Emma from further Other apex owners have been awaiting the result of this trial and will now bring suit to recover possession.
